Strong understanding of **TypeScript**, **ES6+**, **Express.js** and **Node.js**.

Extensive knowledge about **API REST** and **GraphQL** development.

Solid database knowledge of **SQL** and **NoSQL (MySQL, PostgreSQL, MongoDB)**

I also like to be constantly learning and acquiring new knowledge.

EXPERIENCE

Mercado Libre | **Shipment Representative** | 08/2020-02/2021

Teamwork, tasks against the clock. I was tasked with finding every missing packages in the system. I also learned about **5S methodology**.

LATEST PROJECTS

Users auth REST API.

I have built a **REST API** with **TypeScript** using **Express** as framework that can be used to login or register a user, verify an account by sending an email with a code, send an email to to user with "forgot password" and change it, and create or refresh session tokens.

BBDD (Database) MySQL.

I developed a BBDD about the **workflow** of a **vehicle parking business**. The project has a **DER**, every **SQL Sub-language**, **Stored Procedures**, some **Functions** and **Triggers** with its own **Tables** as a database log.
